Yokohama Has Suffered Even Greater Destruction
Than Tokio—Succession of Earth Disturbances
Extended Many Miles Inland—Members of
Eminent Japanese Families Among Those Perishing

SILOINGHAI, Sept. 4.—(Bulletin)—Deaths in Japan as a result of Saturday's earthquake number 320,000, according to the latest estimate received by the Eastern News Agency at Osaka. The estimate said there were 150,000 dead in Tokio, 100,000 in Yokohama, 50,000 in Yokosuka and 10,000 in Atami.

The fire in Tokio was extinguished about dusk last night. SAN FRANCISCO, Cal., Sept. 4.—(Bulletin)—Latest unofficial reports place the dead in Tokio and Yokohama at 240,000, and 450,000 persons injured as the result of the earthquake and fire, according to a wireless message picked up here tonight from Admiral Anderson, commander of the United States Asiatic fleet.

GRACE, Sept. 4.—It was an area of about 100 square miles, the greatest earthquake in the history of the country that it will be long before the actual loss of life is known. The most reliable estimates of the dead up to the present make as high as 200,000 to 350,000. Tokio and Yokohama with surrounding areas which formed the centre of the disturbances, are almost completely in ruins. For two days following the earthquake, and during the time of the fire caused directly by the shaking, thousands of persons must have perished in the burning wreckage, through the fire smoke, and other causes.

Yokohama, Japan's busy port, is being destroyed. The earthquake and fire have been so severe that the city is almost completely in ruins. The earthquake and fire have been so severe that the city is almost completely in ruins.

TORONTO WILL BUY ALBERTA COAL SAYS MAYOR MAGUIRE

TORONTO, Sept. 4.—Mayor Maguire announced today following a conference with representatives of the Alberta coal companies, which offered to sell coal to the city at \$11 a ton.

Toronto, that the board of control were in favor of the purchase of several thousand tons, provided the companies could guarantee prompt delivery and that the quality would be up to representation.

On the latter point the representatives of the companies could give positive assurance, but on the matter of delivery there were those who were not so sanguine and asked for a few days grace to enable them to consult the railway companies. The great difficulty in the way of prompt and rapid delivery was the shortage of cars. A further conference will be held in a few days.

Pantages

HIGH-CLASS ENTERTAINMENT
For real variety—and actor all that is what you really want to see—the current bill at the Pantages Theatre can be highly recommended. There are no two bits in the program, and that the public is having a grand time is attested by the fact that the theatre is in attendance opening with two capacity audiences on Labor Day. The bill will be continued, week after week, for the remainder of the week. Edmonton once again being a place where the word "variety" is not a word, but a fact.

Lillian Burkhardt, one of the finest actresses on the stage today, with her company, heads the bill in a dramatic playlet, "The Last Days." The play deals with the dangers of the narcotic traffic which is spreading over the continent, and which is a presentment, dramatized in a clear-cut manner, the immediate necessity of prohibitory measures. Miss Burkhardt is at her best in "The Last Days" and has given excellent support.

They are the children of Samuel and Augusta McGraw. The youngest is 86, the oldest 12. And at a strange twist of fate never before have all been in one house at the same time. The oldest daughter was married before the youngest were born. At their original home in New Castle, Pa., then came the names of the seven. Some went east, some west, some south, and some north. One of them conceived the idea of a reunion. One letter to each was sent, and the women were packed and on their way to the home of Mrs. Elia Forter. The sisters came from pioneer stock and can trace their family history back for generations. They say they hope this reunion won't be the last one.

Council Must Give Lease By Thursday

Unless Terms Offered by Kenzie McKennie for Arena Ring Are Accepted by Thursday Night Transfer of the Ring Will Be Submitted to League Meeting on Friday for Approval—Unlikely to Operate in Edmonton with Rent Asked by City

Kenzie McKennie, owner of the Edmonton hockey franchise and manager of the Eskimo hockey team for the past two years, has completed all arrangements for moving his team from Edmonton. He returned from a trip to Saskatchewan and Manitoba last Saturday and yesterday announced that he was ready to move unless the council reached a decision to let him have the arena ring on the terms he offered. That decision must be reached by Thursday night, for on Friday a league meeting in Calgary, where the transfer of the club will be submitted to the delegates for their approval.

McKenzie offers the city \$10,000 cash or 20 per cent of the receipts for the arena. The city council wants \$10,000 or a larger percentage.

Every year the city has raised the rent on the arena and it has been the point when it has been raised to do business. If the city insists on their demands three more years are open to get and McKenzie last night, "I must move my team to another town, and I will build a rink there."

When the arena was first built, it was a rink and it was not built to play with the rink. It was built to play with the rink. It was built to play with the rink. It was built to play with the rink.
